

**GOVERNMENT OF INDIA PRESS,  
ALIGARH**

**Information as per Clause(b) of  
Sub-section 1 of Section 4 of Right  
to Information Act, 2005.**

#### **4(1)(b)(i) The particulars of Govt. of India Press, Aligarh, Functions and duties**

The Government of India Press, Aligarh, formerly named as Postal Press, Aligarh came into existence towards the close of the year 1879. Probably this place was chosen for the establishment of the Press, then under the control of P.&T. Department for two reasons, first because the Postal Department had already Workshops here and secondly, because this place was expected to afford greater facilities for distributing the printed books and forms, as it was within the easy reach of the various Postal Stock Depots in Northern India. Steam Power was first used in 1902. In 1908 after the abolition of the Bombay Postal Press all its stock of Marathi and Gujarati types and some plant and furniture were transferred to this Press.

Some time after, distribution of all forms in the U.P. Circle and retail and bulk supplies to the Punjab Circle was undertaken by this Press. During the War, the Press was invaluable to the Department in supplying books and forms to the different centres of war activities in Europe and Asia. There were originally about 350 Post Offices and R.M.S. books and forms (including intraocular translations). This number has now increased enormously and with the opening of more Post Offices, the demands for printed P.& T. and R.M.S. forms have also much increased. In the course of two decades, a large number of Post Office forms, previously used in manuscript were standardised and printed and called SF. forms. A large number of telegraph and A.G.P.T. Forms were also added to the list.

All machines were operated by hand prior to 1902 from which year the machines were worked by steam power, electric power was later used in the year 1926. The Press had a D.C. Generating plant of its own for power supply. It has further been supplemented by a D.C. Motor Generating Set in the year 1944. The conversion of the entire equipment from D.C. to A.C. had been approved by the Government. An additional power of 220 KW had been sanctioned by the Hydel Department of the Government of Uttar Pradesh which had been very necessary as the existing electrical plant was made to meet the full demand of the Press. The Press Electrical Department is no longer under the control of Manager and has been transferred to the control of the C.P.W.D. which is managed by one Assistant Electrical Engineer two Section Officers and allied staff.

The Press is working in two shifts. The Night Shift started working from the year 1944. The administrative control of the Press passed from the Director General, P.&T. to the Controller of Printing & Stationery, India, in the year 1924. The main Press building was completed in the year 1926. Since then there have been many additions, viz., Blocks A,B,C,D, and E and one M.B. Shed, one Missan Hut and a Reels Shed (Double Storey building). Three more sheds in between the residence of Manager and Assistant Manager have been constructed. Apart from this building, Dispensary, Canteen-cum-multipurpose Hall has been constructed

and taken over by the Press in May, 1959. One shed adjacent to Power Houe has also been constructed for storage of reel paper.

The D.G.P. & T. has taken over the administrative control of the Forms Storage and Distribution Wing (Forms Store) of this press with effect from the 15th March 1955 and so a portion of the Press building i.e. A,B,C & D Blocks, had to be released for the P.&T. Department. That wing is now working under the charge of a separate Superintendent of the P.&T. Forms and Seals. All printed and finished jobs are now made over to him, who arranges their suply to the P.&T. Offices located in the Aligarh Catering Area.

Upto the 31st December, 1931, the Manager was also the Superintendent of a fullfledged Postal Workshop, a separate instituion directly under the control of the D.G.P. & T. but it was later reduced to the manufacture of the Postal Seals and stamps only. With the separation of the Forms Store Wing of the Press with effect from the 15th March, 1955, which has been taken over by the P.&T. Department as already stated above, the Manger ceased to hold the charge of the Postal Seals Office, Aligarh, which is anow functioning under a Superintendent of the P.&T. Department.

For streamlining production, old Central block has been demolished and a new spacious one constructed in its place. The Press has been partially modernised by introduction of Offset machines and other allied machineries. One envelop making machine has also been installed.

**The category-wise details of staff in Govt. of India Press, Aligarh are given as under:-**

Sl.No.	Name of the Post	Pay Scale (In Rs.)	Sanctioned Strength	Men on Roll as on 31-8-05

### **Cost of Printing**

The cost of printing of the jobs of indentors are realized by raising printing cost bills, on the basis of existing costing system approved by Directorate of Printing, New Delhi. The existing costing system is based upon proforma account of this Press. That is being worked out on the basis of common hourly rates for each cost centre of this Press. This costing system is under review and will be replaced with commercial accounting system for which necessary computer software is being specifically designed and developed for all Govt. of India Presses. To implement that new costing system this Press is going to be equipped with computers very soon. At present the printing cost is being realized from indentors on no loss no profit basis.

### **4(1)(b)(ii): The powers and duties of officers and employees of Govt. of India Press, Aligarh**

#### **Non-Industrial Employees**

- (1) Manager: The duties and the powers of the Manager are given below:

**Duties of Industrial Employees:**

- (1) **Junior Artist:-** This is Group 'C' Industrial post. Senior Artist/Junior Artist is responsible to do work of design, art work, colour designs, charts and lay out work as per the job requirement. He is held responsible for preparation of any design given to him, viz., cover design, periodicals, lay out etc. and for getting selected visual camera ready copy etc. selected. He indicates the colour scheme on the final art work and prepares the cut drawings. He also prepares the formats of the jobs from the negatives or print jobs. He is answerable to technical officer/AM(T)/Deputy Managers.
- (2) **Offset Plate Maker/Assistant Plate Maker:-** Plate maker will be responsible for the plate making work. He will immediately report the defects noticed in the equipment to the Technical Officer of the Section. He will also maintain the history of such breakdowns and repairs. A separate register will be maintained for the consumption of the plates. He will also maintain the daily out turn in a register for the job of the plates prepared. He will ensure that the plates prepared are of good standard. He will also fill up the Log Book which will give the instructions for the preparation of the plates to the second shift operator. The second shift plate maker will also fill up the log book of the work done during the shift. At the end of the shift, the plate maker will submit the work done during the day in the form of work docket to the Technical Officer of the Section. He will also ensure that the plates are sent to the Machine Section whenever required. He ensures that plates prepared are of good standard and under no circumstances defective plates are sent to the Ptg. Section.
- (3) **Reader:-** Proofreading is the duty allotted in the press to "readers" to detect all errors, to mark them on proofs by certain long established symbols, and to query all doubtful passages or words. To read proofs efficiently the reader must possess a god general education and a practical knowledge of the art of typography, and be able to check the correctness of ordinary quotations (English, Latin and French). He should also have a

thorough knowledge of the signs and marks used in proof correcting (*see* method of marking proofs below paragraph 180) and should make his corrections clearly and neatly to avoid confusing the operator/compositions. He should cultivate a quick perception and retentive memory. In imposed Press reading proofs the senior readers should check the folios, signature and margins.

- (4) **Copy Holder:-** Each reader is given an assistant known as Copyholder, whose duty is to read the "copy" aloud to his reader. A copyholder must be able to decipher bad or defective manuscript easily.
- (5) **Offset Machine Man:-** Each machine operator will be required to work on a single colour, double colour or two colour/perfecting machine irrespective of the size of the machine. He will check up the set of the Board, inking units and he will check up the Pressure roller. He will ensure that the machines are neat and clean. He will also ensure that the inking rollers are cleaned at the end of the shift. He will see that the plates mounted on the machine are properly fixed and make ready is done within time. He will also ensure that the paper kept in the feed board are properly trimmed and the feeding tables are properly set. He will ensure efficient running of the machine to avoid break down. He will guide his staff properly and in the absence of machine attendant. He will take the list of the jobs and show the clean sheet to the Technical Officer before printing.
- (6) **Offset Machine Asstt. :-** He will set the Feeder. He will set the feeding table with printing paper; He will said the delivery board. He will check the attendants working on the machines, clean the machine and ensure its proper upkeep. He will ensure that the proper damping solution are put in the machine. During the machine run, he will stand on the side of the feeder. He will also ensure that the machines are maintained properly. He will fix the new blanks in the machines. He will also periodically check that the ink and water are properly fed in the machine. In the absence of the machine operator, he will required to operate the machine independently.
- (7) **Offset Machine Attendant:-** The Attendant in the machine section will clean the inking and damping rollers. He will bring the paper from the paper cutting machine. He will put the paper for printing on the feed board. He will fix the plates on the machine. He will stand on the delivery board and see that the printed sheets are not mis-registered. He will also see that inking and damping are proper and no succumbing is recorded. He will also ensure that excess water is

not falling on the printed sheet. Such excess water sucking etc. should be immediately brought to the notice of Assistant Machine Operator/Machine Operator. The attendant will be required to clean the printed plates and store them properly. He will put the printed sheet on the plates to identify the job. He will oil and grease the machine every day.

- (8) **Head Mechanic:-** The head mechanic is responsible for keeping the machinery throughout the press in thorough working order. He works under the direct orders of the Dy. Manager/Assistant Manager (T), and will undertake repairs to machinery, etc., in the various branches only on a requisition signed by the Dy. Manager/Assistant Manager (T). He will report immediately to the latter any case in which, in his opinion, a machine has been put out of order by the negligence of the operative. He will personally inspect all the machinery throughout the press at least once a week, and submit to the Manager written report of the result of his inspection, reporting at the same time instances of neglect on the part of the operatives concerned. The whole cost of the branch has to be charged over the productive branches of the Press, so that it is essential that the time of the mechanics and the materials consumed should be carefully noted against the branches requiring their services.

The Head Mechanic will maintain a Register of Orders giving details of work, cost of labour and materials.

He will keep an up-to-date account of roller stocks and also submit a weekly report of the 'Machines of various sections' to the Manager showing the condition of each machine, period of stoppage etc.

- (9) **Mechanic and Asstt. Mechanic (Ptg. & Binding) :-** The mechanics and assistant mechanics erect and repair the printing machines both Letter Press & Off-set and also binding, machinery, and other auxiliary machinery shafting, etc., test the weighing machines, sharpen cutting machine knives, oil shaftings, bearings and do any other mechanical work. They dismantle machine also. No order for mechanical work or repair may be undertaken without a requisition duly signed by the Dy. Manager/Assistant Manager (Technical). Each mechanic will submit daily a docket in the form below showing how his time has been occupied during the day. The daily docket will be dispatched by the head mechanic to the general storekeeper to note thereon the cost of materials issued, and then to the accounts section for the purpose of debiting the cost against the branch concerned.

**(10) Foreman (Bindery):-** The Bindery Foreman is responsible for making all practical arrangements for economical and expeditious binding of all work sent to him. He shall distribute work to the operatives equitably. He is responsible for the proper maintenance of all registers of Bindery Section. He shall also keep ready the list of petty plants, tools and other dead stock articles in the prescribed manner. He shall exercise general supervision on the working of all staff under him and maintain complete record of production. On receipt of work from the Overseer the Foreman shall make every practical arrangement to get the work executed in the shortest time possible. The work shall first be centered by him in the Bindery Register. The entries in the Bindery Register shall show the date of receipt, binding order No., from whom received, description of work, nature, of binding, size, number of pages in each, number of books or/and copies, date wanted, etc.

**(11) Section Holder (Bdg.) :-** The duty of the Section-holder is to generally assist the Bindery Forman in every respect. He should keep a correct record of all jobs in the Bindery Branch and maintain their progress. All correspondence with departments and replies to reminders should be carefully dealt with by him in consultation with the Bindery Foreman. He should maintain the Log Books for the different groups entrusted with the jobs. He is personally held responsible for the general supervision over the work of the different sections etc. Envelope, Counter, Ruling section, Die Stamping Section, Stitching Section, folding Section and Numbering Section etc. All cases of Binding orders with regard to the old books and registers should be carefully prepared by him.

He should also prepare the binding orders of the Envelope and D.O. note papers according to Department's instructions. In case of the casual absence of the Bindery Foreman, he should be able to carry on the duties of the Bindery Foreman.

**(12) Binder:-** Binders undertake all kinds of binding work, e.g. leather and board. He is also required to operate guillotine cutting machines, cut papers to sizes as required and trim finished books in their respective sizes. He is personally responsible for the condition of his machine and for its proper oiling and cleaning. The number of copies in each bundle are to be written outside. The Despatcher will count the copies on receipt and bring to notice at once any shortage or excess. After initialing the vouchers, the Despatcher will be responsible for any discrepancy. The work docket must be sent to the Despatcher with the first batch of copies, this is most important.

- (13) **Assistant Binder:-** He should be acquainted with the process of all kinds of normal binding work and should be responsible for operations like counting, folding, gathering, stitching/sewing, numbering, covering and all other similar activities required for binding and finishing both manual and on machine. He should also be responsible for operations like knocking, pasting, binding and bundling, numbering under the Bindery Foreman's instructions. The Bindery Assistant should be able to handle all simple machines used in the Bindery *e.g.* cutting, stitching, perforating, eyeleting, punching, numbering machines, etc.
- (14) **Section Holder (Case):-** Section Holder(Case) is responsible for the cleanliness, orderliness and supervision of the store room. He is responsible for seeing that the sections are supplied with type materials, chases and imposing materials, correctly and expeditiously. He should see that heading type cases are clean, filled and correct in their places in the numbered racks. He will be held responsible for the maintenance of blocks received from Department and should send them back when no longer required. He should maintain a register for the blocks and keep it ready for correct reference. He is responsible for correct feeding of the Melting Furnace and for seeing that proper supply of Lino and Mono metal is made to the Lino and Mono sections every day. He should maintain register for metal re-melting and disposal of dross. He should keep a careful watch on all valuable materials in the store room and keep adequate stock of quadrates and quotations, lead and rules. He will be held responsible that type forms sent for distribution are promptly distributed and will issue a receipt for every form received in the Receipt Book for distributing forms.
- (15) **Compositor:-** Compositors hand composes matters. He is not allowed to work jointly either in original composing or in alteration work. He keeps his copy clean and before leaving Press or a batch of copy is composed he hands the same over to Section Holder. He is to ensure stipulated outturn. He is responsible for any loss of copy or any fault. He is to submit daily Memos and charge files to Section Holder for computing.
- (16) **Machine man:-** The machine man is responsible for making ready, running machine and for quality printing. He should be well versed with printing on cylinder and platen machines etc. and be able to print from halftone and line blocks and do colour printing. He shall be responsible for keeping the machines under his charge in good working order. He should be able to detect any defect in the machine which he will report to mechanic for his immediate

attention. Before starting work every machine man must clean and oil his machine thoroughly. He should first run the machine by hand or by slowly inching to see that there is no breakage of parts and that everything is quite alright. Any defect found must at once be reported to the Machine Foreman/Overseer for necessary action.

The machine man of the Day Shift must at the close of the shift inform his reliever any special instructions regarding the working of the machine or any defects noticed by him—and in the event of the Night Shift machine man not arriving in time he should leave such instructions with the Machine Foreman.

The Night Shift machine man should report such defects to the Night Shift Machine Foreman who will leave written instructions to the Day Shift Machine Foreman.

- (17) Labourers :-** He is a Group D Industrial employee at lowest level hand in shop floor. He does supply paper in machines, does packing, loading and unloading of printed materials, cleaning of machines and all other manual labour required in connection with production and upkeep of machines.
- (18) Carpenter :** - He carries out repairs of office furniture and prepare printing wooden materials and attends packing works. He does carpentering job on getting the requisition signed by Am(T)/Dy. Manager

**4(l)(b)(III):- The procedure followed in decision making process, including channels of Supervision and accountability:-**

The entire system is bifurcated in two wings, *i.e.*, Industrial Wing and Non-Industrial Wing. In other words, it can be stated—Factory side and Administration side. The Factory side is distributed into various industrial sections. Each of Industrial Section is headed by a Section Holder/Foreman/Overseer/Technical Officer as the case may be. All of them are responsible for distribution of work and its proper execution. In case of any default, they seek the advice/order/instruction from their Branch Officers, *viz.*, Asstt. Manager (Tech.)/Deputy Manager who in turn take appropriate decision to ensure proper and time bound execution of printing work. The Manager/General Manager remains overall responsible for smooth and errorfree execution of printing work. The Non-Industrial wing is similarly, distributed into various ad mini strati on/Ac counts Sections. Each Non-Industrial Section is supervised by a Head Clerk (Jr.)/Head Clerk (Sr.)/Accountant/Cashier. These Supervisors are responsible for distribution and timely disposal of work. They work under the control of Asstt. Manager (Admn.)/Asstt. Manager (Actts.). Who is their

Branch Officer. The Asstt. Manager (Admn.)/(Actts.) is responsible for ensuring proper and smooth disposal of work relating to Administration and Accounts within the prescribed rules and regulations. In all matters of importance orders/approval of the Manager are obtained invariably.

**4(I)(b)(IV):- The norms set by Gov.t of India Press, Aligarh for the discharge of its functions:-**

The main function of this press is the printing of various forms registers etc of the Deptt. Of post. Besides, the printing jobs are allocated to this Press by Directorate of Printing, New Delhi with due consideration to the nature of jobs to be printed, size of machines and other infrastructural supports available with the Press. The general policy in the matter of discharging the functions is the disposal of work/jobs as per delivery schedule desired by the Indenter. To achieve this target, the jobs are prioritized and processed. Although individual outputs are fixed for the operative hands, working in pre-printing, printing and post-printing branches, such outputs always do not help to complete the jobs in hand as per the delivery schedule fixed due to various unforeseen administrative reasons. Therefore, maximum output is obtained from every operative hand at all stages of execution of the work through motivation and with better inter-personal relations maintained in the units, and thus the targets are fulfilled.

**4(I)(b)(V):- The rules, regulations, manuals and records held by Govt of India Press, Aligarh or under its control or used by its employees for discharging its function:-**

Govt. of India Press, Aligarh is a pure Central Government Organization and governed by a set of Rules/Regulations/Instructions contained in the **Press** manual named "The Hand Book of Govt. of India Presses" and the rules framed by Govt. of India regarding service matters of Employees, viz., Fundamental Rules, Supplementary Rules, GFR, CTR, Receipts & Payments Rules, Leave Rules besides Factories Act, Payment of Wages Act, Compensation Act etc. etc.
